

Advanced Acoustics M20 Acoustic Soundproofing Mat Data Sheet

Application

Recycled Rubber Granulate – Acoustic

Material

Fine granules of recycled rubber with a PU elastomer bonding agent

Appearance

Colour: Black (granulate)
Surface: Fine granulate structure

Dimensions / Tolerances

Size: 1m x 1m +/- 5%
Thickness: 20mm
Density: 730kg/m³

Physical Properties

Tensile Strength: approx .6 N/mm² (DIN 53571)
Elongation at break: 10mm approx 10% (DIN 53571)
Service Temperature Range: -30°C to +80°C
Environmental behavior: limited resistance to acid and alkaline solution

Non Hazardous

Fire: B2
