

Advanced Acoustics Drum Kit Isolation Platform – 6ft x 8ft Data Sheet

Individual Isolation Pad Size	2" x 4" x 48" (50mm x 100mm x 1220mm)
Quantity Of Isolation Pads Per Box	8 (enough to create a platform size of 6ft by 8ft)
Platform Height	2" plus thickness of MDF (MDF not supplied)
Acoustic Foam Colour	Black
Acoustic Foam Density	80 kg/m ³
Acoustic Foam Composition	High Load Bearing Open Cell Polyurethane Acoustic Foam
Fire Classification	Crib 5 and Schedule 1, Part 1 of the Furnishings and Furniture (fire)(safety) Regulations 1988 (amended 1989)
Product Description	Drum Kit Isolation Platform

Description

These Drum Isolation Platforms work by de-coupling your drum kit from the floor. This in turn reduces the amount of vibration passing through the floor when striking the drum. This then will reduce the impact noise that is heard in the floor below and rooms next door. The vibration absorbing foam is a high load bearing foam and is designed to be stable when a drum kit and its operator is sat in it. The vibration absorbing strips sit under a sheet of 25mm ply or MDF (sheet is not supplied) to de-couple the drum kit from the rest of the room.

The acoustic foam we use conforms to the more stringent fire tests of Crib 5 and Schedule 1, Part 1 of the Furnishings and Furniture Regulations so you will have peace of mind that the product you are using is safe also. And you also have our guarantee that the foam will stand the test of time. The colour we use has been carefully selected to ensure that it doesn't quickly discolour or fade over time. You won't have the problem of the foam crumbling and turning to dust either. We know that treating your studio is a big investment and we want to make sure that your investment stands the test of time. The only way to ensure that is by sticking with Advanced Acoustics. We have many years of experience in acoustic treatment and soundproofing. Acoustic Treatment and Soundproofing are the only products we deal with. You won't see us selling any other forms of foam or bedding. Acoustic foam is all we do and we are very good at it as our outstanding feedback and previous customers will testify. Our products have been used by a full host of companies including the BBC, Williams F1 Team, McLaren, Cisco, Cadburys and ITN just to mention a few.

This item is kept permanently in stock. The foam we use is an open cell polyurethane acoustic foam and is available in black only.
